INDEX TO VOL. 48

Anthony, P., The smallest ideals in the two natural products on βS 363
Beidar, K.I., Knauer, U., and A.V. Mikhalev, An example of two von Neumann regular rings with nonisomorphic Morita equivalent multiplicative semigroups 381
Bogdanović, S.,–see Ćirić, M.
Bouziad, A., Exemples d'actions non continues d'un groupe dans un compact 127
Breen, M., Covering in the set of principal ideals in the semigroup of binary relations 369
Ćirić, M., and S. Bogdanović, Nil-extensions of unions of groups induced by identities 303
Denecke, K., and S.L. Wismath, Solid varieties of semigroups 219
El-Mabhouh, A., Pym, J., and D. Strauss, On the two natural products in a Stone-Čech compactification 255
Filali, M., On some special measures on βG 163
Garba, G.U., Nilpotents in semigroups of partial one-to-one order-preserving mappings 37
Geroldinger, A., and F. Halter-Koch, Arithmetical theory of monoid homomorphisms 333
Grimmer, R., and J.H. Liu, Integrated semigroups and integrodifferential equations 79
Halter-Koch, F.,–see Geroldinger, A.
Ishikawa, M., Admissible and regular potentials for positive C_0-semigroups and application to heat semigroups 96
Ismaeel, A.A., On the E-unitary covers for a Bruck semigroup 193
Ito, M., Thierrin, G., and S.S. Yu, Right k-dense languages 313
Ivanov, S.V., On some finiteness conditions in semigroup and group theory 28
Ivanov, S.V., On subsemigroup lattices of aperiodic groups 131
Kelarev, A.V., On the weak permutation property 253
Kelarev, A.V., Radicals of semigroup rings of commutative semigroups 1
Knauer, U.,–see Beidar, K.I.
Konieczny, J., Green's equivalences in finite semigroups of binary relations 235
Lallement, G., and L. Rosaz, Residual finiteness of a class of semigroups presented by a single relation 169
Lawson, M.V., Extending partial isomorphisms and McAlister's covering theorem 18
Levi, I., Transformation semigroup diagram and the $\mathcal{J}$-relation 138
Levi, I., and G.R. Wood, On automorphisms of transformation semigroups 63
Li, F., On the weak regularity of semigroup rings 152
Liu, J.H.,–see Grimmer, R.
Magill, Jr., K.D., Magnifying elements of transformation semigroups 119
Magill, Jr., K.D., More on topological N-groups 258
Mikhalev, A.V.,–see Beidar, K.I.
Nagy, A., Permutation functions and (n, m)-commutativity of semigroups 71
Neeb, K.-H., Representations of involutive semigroups 197

Park, C.-H., On right congruences associated with the input semigroup S of automata 263
Ponizovskiĭ, J.S., Correction to my paper "On a type of matrix semigroup algebras" 129
Pym, J.,–see El-Mabhouh, A.
Rau, R.T., Hyperbolic evolution semigroups on vector valued function spaces 107
Reilly, N.R., Completely regular semigroups as semigroups of partial transformations 50
Rosaz, L., On the degree of finite maximal biprefix codes 327
Rosaz, L.,–see Lallement, G.
Šikić, H., Nonlinear perturbations of postive semigroups 273
Strauss, D.,–see El-Mabhouh, A.
Thierrin, G.,–see Ito, M.
Trahtman, A.N., Identities of a five-element 0-simple semigroup 385
Wang, H., Injective hulls of semimodules over additively-idempotent semirings 377
Wismath, S.L.,–see Denecke, K.
Wood, G.R.,–see Levi, I.
Yu, S.S.,–see Ito, M.
